Virtual live training

The International Medical College (IMC®) provides dentists interested in further education with live training courses on current issues in all areas of dentistry. The established virtual IMC® conference system enables location-independent participation in university seminars, symposia and conferences at the highest level. Monthly lectures are given by internationally renowned experts on a current topic with the possibility of subsequent discussion.

Our Offer

- One-hour online presentation once a month on Wednesdays at 3:30 pm (15:30 hrs)
- Current training covering all subjects relevant to dental and medicine
- Internationally renowned speakers
- Continuing education credits from the German Dental Association (BZÄK)
- Location-independent participation
- Reduced training time
- Reduced costs
- Permanent structured training
- Moderated chat
- Versatile skills for your future career

Registration and payment conditions on www.med-college.de

Costs:
30 € per lecture or 150 € per year (8 lectures)
For IMC® Alumni: 20 € per lecture or 100 € per year (8 lectures)

For participation is required:
Computer with Internet access (at least ISDN, ideally DSL). A high-quality audio headset or, alternatively, microphone and headset. (Otherwise, you won’t be able to take part in the conversation. However, you can still listen to the discussion via loudspeaker and enter your questions into the text chat.)

Continuing education credits:
The General Dental Council of Westfalen Lippe has been informed as relevant authority. The organizer confirms through his signature that the course is in agreement with the guidelines and recommendations of the Professional Organisation of German Dentists ("BZÄK") regarding continuing education. 1 credit point per lecture will be awarded.
